Let's Try it in the Lab! Do you have an idea for an experiment that is noisy, messy or so annoying no one will let you try it at home? Let's try it in the lab! Then when the weather is right, we will get our outside garden ready for planting...and plant.

WEDNESDAYS

VOICE CLASS with Miss Hope - Voice class with Miss Hope! We will be practicing our vocals while learning individual solos and group songs! The class will learn the basics of breathing, solfege, harmony and ear training, all while learning a few songs. Students can choose from any genre of music for their solos or work on their Beauty and the Beast solos. Once we have everyone signed up, Miss Hope will choose the group songs to stage and perform. This is perfect practice for our spring musical!
