

Supply List 2019-2020

Supplies needed for the start of the school year:

- 2 double pocket folders
- 1 ½ inch binder
- 6 Pencils
- 1 Box colored pencils
- 4 Boxes of Tissues (to be shared in class all year)
- 3 large glue sticks
- 1 pair of scissors
- 3 containers of disinfectant wipes (to be shared in class all year)
- Reusable water bottle*

*All of us at Laurel must do our part to reduce our carbon footprint and protect the environment. We will no longer be providing plastic water bottles for students. Each bottle leaks harmful chemicals into our environment along the way as it decomposes. Studies show that the toxins in decomposing bottles of water leach into our environment and can cause a variety of health issues. A report by *Euromonitor International* finds that 1 million plastic bottles are purchased every minute and that only 7% of them are actually recycled. Please send your child with a reusable water bottle that can be refilled using the sink or water fountains during the school day.

Other suggested items to bring on the first day of school:

- A seasonal appropriate change of clothes, in case of emergencies. Please note that students arriving to school out of dress code will be asked to change into appropriate clothing. If students do not have their own, they will be required to change into items we have on hand.
- A spare pair of sneakers to ensure preparedness for gym
- An umbrella in case of inclement weather
- A pair of boots
